Read This Before Ordering.

**We will positively do all we claim
But can not be responsible for your
mistakes.**

WE ABSOLUTELY GUARANTEE SATISFACTION and if on receiving your order you feel that you have not received full value in every way we will either replace the goods or refund your money. But if you do not let us know and give us a chance to make it right you have no one to blame but yourself.

All Seeds in packets, ounces or quarter pounds delivered free. For Seeds in larger quantities and all other items if to be sent parcel post or express add 10% of the amount of your order to help pay transportation.

If you send Stamps with your order send only ONE CENT, TWO CENT, or THREE CENTS. WE POSITIVELY CAN NOT ACCEPT HIGHER DENOMINATION.

DISCOUNTS:—Seeds in packets and ounces we will give 60c worth for 50c, \$1.25 worth for \$1.00. For larger than ounces of Seed and all other items from \$1.00 to \$4.99 deduct 10%. \$5.00 or over deduct 15%.

Risley's Plant House gives no warranty express or implied as to description, quality or productiveness of any seeds, plants or bulbs we sell and will be in no way responsible for the crop. If you do not accept them on these terms return them at once and get your money back.

No one variety of Vegetables or Flowers will grow the same under different soil and climatic conditions. For 27 years we have been testing hundreds of varieties both in our own garden and from the reports of our customers. We list only those varieties we have found to be best adapted to conditions in Central New York. But in addition to those listed we have limited quantities of many kinds we are trying out or our customers wished us to get for them and through our contact with some of the largest Seed Growers we can supply practically anything you want in either Flower or Vegetable Seed.

LAWN GRASS SEED.—You can buy what is called Lawn Seed anywhere at very low prices and if you are satisfied with Chaff, Weeds, Poor Germinating Seed and varieties not adapted to our soil do not bother with ours as we handle only one quality, the best.

FERTILIZERS and INSECTICIDES. If you want a good garden you must FEED YOUR PLANTS and KILL THE BUGS. We can tell you How, When and What to use.

GARDEN SUPPLIES. To make your work easy and pleasant and your place attractive you need Small Tools, Labels, Pots, Window Boxes, Hot Caps, Trellises and other Garden Supplies. Come and see what we have.

CHAIR CANING. For 25 years we have been headquarters for a complete stock of the finest quality of Reed, Raffia and Chair Cane at the lowest prices.

IS THIS TRUE?

You spend \$2.00 to get your garden plowed, \$1.50 for fertilizer and many hours planting, hoeing, weeding, fighting bugs etc. . . But the seed you get any old place, knowing nothing about the quantity, quality or variety. You get no information as to What, When or How to plant and care for it. What is the result?

YOU SAY IT DOES NOT PAY TO BOTHER WITH A GARDEN

When if you get the right Seed with suggestions as to the best varieties and information on how and when to plant and fertilize, and how to fight the bugs you would derive lots of pleasure and have an abundance of Flowers and Vegetables all Summer.

V. E.—As soon as ground can be worked.

E.—Two or three weeks later.

(A)—Sow succession every three weeks.

(B)—Every three weeks to July 1st.

We do not try to estimate approximate yield or time of maturity as this depends so much on the weather and soil conditions. A good general rule for depth of planting is **FOUR TIMES THE DIAMETER OF THE SEED.**

Have your ground thoroughly prepared before sowing the Seed.

When you water, soak the ground, do not just sprinkle.

Keep the weeds down and the ground mellow.

Use Fertilizer to feed the plants and Insecticides to kill the Bugs.

If you do not know **WHAT, WHEN** and **HOW** to use them, ask us.
